

MFSA

MALTA FINANCIAL SERVICES AUTHORITY

PRESS RELEASE

PUBLICATION OF FAQ DOCUMENT ON THE VIRTUAL FINANCIAL ASSETS FRAMEWORK

The MFSA has received significant interest on the Virtual Financial Assets Act and the underlying framework regulating activities and services in relation to virtual financial assets.

MFSA Officials had the pleasure of engaging with the industry during the Delta Summit held last week and address numerous queries raised by prospective operators and service providers that are seeking authorisation under the Virtual Financial Assets Framework. In an effort to provide further guidance to the industry in this regard, the MFSA has today published a set of [*Frequently Asked Questions on the Virtual Financial Assets Framework*](#).

This FAQ document will be updated with further Q&As to address the general queries raised by interested parties, as the framework develops.

Further updates and developments on the Virtual Financial Assets Framework will be made public on: www.mfsa.com.mt/vfa.
