The Group intends to raise funds for the financing of these initial phases of the Project partially through the Bond Issue, with the remaining capital expenditure being funded by bank finance and own funds.

Save for the above, the Group is not party to any other material investments, and has not entered into or committed for any principal investments subsequent to the 31 December 2015, being the date of the latest audited consolidated financial statements of the Guarantor, and the Guarantor is not aware of any recent events which are, to a material extent, relevant to the evaluation of its solvency.

B.14 The Issuer is not intended to undertake any trading activities itself apart from the raising of capital and the advancing thereof to members of the Group. Accordingly, the Issuer is economically dependent principally on

the financial and operating performance of the businesses of Ableman International Limited and Mainticare Limited, which are the key operating and trading entities within the Group, both of which were registered in 2001 as the founding companies of the Group and which operate in the marine, oil and gas services sectors.

The Issuer does not have any substantial assets and is essentially a special purpose vehicle set up to act as a financing company. The Issuer is, therefore, intended to serve as a vehicle through which the Group will continue to finance the Group's future projects, principally and in the immediate future the rehabilitation of the former Malta Shipbuilding site in the Grand Harbour into the Mediterranean Maritime Hub (as set out in further detail in the immediately following paragraph).

The Guarantor is the parent company of the Group, the operations of which have, to date, been largely divided between the activities of the two founding and main operating companies Mainticare Limited and Ableman International Limited as previously stated. The Group has, following a competitive tender process, recently been entrusted by the Government of Malta to rehabilitate the former Malta Shipbuilding facility in the Grand Harbour into a circa 169,000m<sup>2</sup> hub dedicated to the marine, oil and gas sectors, with all the facilities typically associated with such a hub, including a dedicated rig servicing centre, support facilities for engineering services, yard storage facilities, berthing and docking facilities, logistical services and a specialised training centre. More specifically, on 1 August 2016 the Guarantor entered into a contractual deed with Malta Industrial Parks Limited for the emphyteutical concession to the site in question for a period of 65 years.

- B.15 The Issuer was set up and established to act as a finance company. In terms of its Memorandum of Association, the main object for which the Issuer is constituted is to purchase or otherwise acquire, under any title whatsoever, to hold and manage, by any title, movable and immovable property or other assets, including but not limited to securities and other financial interests.

The Guarantor, as the parent company of the Group, is principally engaged, directly or through subsidiaries, in the supply of specialised products and services to the marine, oil and gas industries. In terms of its Memorandum of Association, the Guarantor is, amongst other things, empowered to secure and guarantee any debt, liability or obligation of any third party by hypothecation, charge or pledge upon the whole or any part of the company's property or assets, whether present or future.

- B.16 The Issuer's current authorised and issued share capital is €250,000 divided into 250,000 ordinary shares of €1 each, fully paid up. The Guarantor holds 249,999 ordinary shares of €1 each and Mr Paul Abela holds 1 ordinary share of €1.

The authorised and issued share capital of the Guarantor is €500,000 divided into 250,000 ordinary 'A' shares of a nominal value of €1 each and 250,000 ordinary 'B' shares of a nominal value of €1 each, fully paid up, held as follows: Elesolar Company Limited (C 5511) holds 250,000 ordinary 'A' shares of €1 each, Elesolar Holdings Company Limited (C 17386) holds 249,980 ordinary 'B' shares of €1 each and Mr Paul Abela holds 20 ordinary 'B' shares of €1 each.

- B.17 *Not Applicable*: neither the Issuer nor the Guarantor have sought the credit rating of an independent rating agency and there has been no assessment by any independent rating agency of the Bonds issued by the Issuer.
- B.18 For the purposes of the guarantee, the Guarantor stands surety with the Issuer and irrevocably and unconditionally undertakes to effect the due and punctual performance of all the payment obligations undertaken by the Issuer under the Bonds if the Issuer fails to do so. Accordingly, until such time as the Bonds remain in issue, the Guarantor undertakes to pay on an on-going basis, interest which may become due and payable during the term of the Bonds and the principal amount of the Bonds on the Redemption Date should the Issuer default in paying the Bondholders under the Bonds. In such cases the Guarantor would be under an obligation to pay to the Bondholders, upon demand and without the necessity of action first being taken by Bondholders against the Issuer itself, the amount due and payable by the Issuer to such Bondholders. The Guarantor's obligations under the guarantee shall remain in full force and effect until no sum remains payable to any Bondholder pursuant to the issue of the Bonds.

### 3 SECTION C - SECURITIES

- C.1 The Issuer shall issue an aggregate of €15,000,000 in unsecured Bonds 2026 having a nominal value of €1,000 per bond, subject to a minimum subscription of €2,000 in Bonds and multiples of €1,000 thereafter. The Bonds

will be issued in fully registered form and will be represented in an uncertificated form by the appropriate entry in the electronic register maintained on behalf of the Issuer at the CSD. On admission to trading the Bonds will have the following ISIN number MT0001241208. The Bonds shall bear interest at the rate of 4.8% per annum and shall be repayable in full upon maturity unless they are previously re-purchased and cancelled. Furthermore, the Bond Issue is guaranteed by the Guarantor.

- C.2 The Bonds are denominated in Euro (€).
- C.5 The Bonds are freely transferable and, once admitted to the Official List, shall be transferable only in whole (in multiples of €1,000) in accordance with the rules and regulations of the MSE applicable from time to time.
- C.8 Investors wishing to participate in the Bonds will be able to do so by duly executing the appropriate Application Form in relation to the Bonds. Execution of the Application Form will entitle such investor to: (i) the payment of interest; (ii) the payment of capital; (iii) ranking with respect to other indebtedness of the Issuer and Guarantor in accordance with the status of the Bonds, as follows: “the Bonds constitute the general, direct, unconditional and unsecured obligations of the Issuer and shall at all times rank *pari passu*, without any priority or preference among themselves and with other outstanding and unsecured debt of the Issuer and the Guarantor, present and future”; (iv) attend, participate in and vote at meetings of Bondholders in accordance with the Terms and Conditions of the Bond Issue; and (v) enjoy all such other rights attached to the Bonds emanating from the Prospectus.

The Group’s indebtedness as at 30 August 2016 amounted in aggregate to €1,600,000 comprising of bank loans. The total aggregate amount of €1,600,000 of bank loans shall be repaid from Bond Issue proceeds. The bank borrowings in question are secured by privileges and hypothecs and, therefore, the indebtedness being created by the Bonds ranks after these bank borrowings, limitedly until such time as said bank borrowings are repaid in full out of the net proceeds of the Bond Issue as aforesaid. The Bonds would also rank after any future debts which may be secured by a cause of preference such as a privilege and/or a hypothec.

- C.9 The Bonds shall bear interest from and including 14 October 2016 at the rate of 4.8% per annum on the nominal value thereof, payable annually in arrears on each Interest Payment Date. The first interest payment will be effected on 14 October 2017. Any Interest Payment Date which falls on a day other than a Business Day will be carried over to the next following day that is a Business Day. For Bonds issued at the Bond Issue Price, the gross yield calculated on the basis of the Interest, the Bond Issue Price and the Redemption Value of the Bonds at Redemption Date is 4.8%.

The remaining component of Element C.9 is not applicable, given that no representative of debt security holders has been appointed.

- C.10 *Not Applicable*: there is no derivative component in the interest payments on the Bonds.
- C.11 The Listing Authority has authorised the Bonds as admissible to Listing pursuant to the Listing Rules by virtue of a letter dated 16 September 2016. Application has been made to the Malta Stock Exchange for the Bonds being issued pursuant to the Prospectus to be listed and traded on its Official List. The Bonds are expected to be admitted to the Malta Stock Exchange with effect from 19 October 2016 and trading is expected to commence on 20 October 2016. Dealing may commence prior to notification of the amount allotted being issued to Applicants.

#### 4 SECTION D – RISKS

**Holding of a bond involves certain risks. Prospective investors should carefully consider, with their own independent financial and other professional advisors, the following risk factors and other investment considerations, as well as all the other information contained in the Prospectus before deciding to acquire the Bonds. Prospective investors are warned that by investing in the Bonds they may be exposing themselves to significant risks that may have the consequence of losing a substantial part or all of their investment.**

**The Prospectus contains statements that are, or may be deemed to be, "forward-looking statements", which relate to matters that are not historical facts and which may involve projections of future circumstances. They appear in a number of places throughout the Prospectus and include statements regarding the intentions, beliefs or current expectations of the Issuer, the Guarantor and/or their respective directors. These forward-looking statements are**

subject to a number of risks, uncertainties and assumptions and important factors that could cause actual risks to differ materially from the expectations of the Issuer's and Guarantor's respective directors. No assurance is given that the future results or expectations will be achieved.

Authorised Intermediaries are to determine the suitability of prospective investors' investment in the Bonds in the light of said prospective investors' own circumstances. The Bonds may not be a suitable investment for all investors. In particular, Authorised Intermediaries should determine whether each prospective investor: (i) has sufficient knowledge and experience to make a meaningful evaluation of the Bonds, the merits and risks of investing in the Bonds and the information contained or incorporated by reference in the Prospectus or any applicable supplement; (ii) has sufficient financial resources and liquidity to bear all the risks of an investment in the Bonds, including where the currency for principal or interest payments is different from the prospective investor's currency; (iii) understands thoroughly the terms of the Bonds and is familiar with the behaviour of any relevant indices and financial markets; and (iv) is able to evaluate (either alone or with the help of a financial advisor) possible scenarios for economic, interest rate and other factors that may affect his/her/its investment and his/her/its ability to bear the applicable risks.

Below is a summary of the principal risks associated with an investment in the Issuer and the Bonds – there may be other risks which are not mentioned in this summary. Investors are, therefore, urged to consult their own financial or other professional advisors with respect to the suitability of investing in the Bonds.

**D.2 Essential information on the key risks specific to the Issuer, the Guarantor, the Group and its business:**

Since the Issuer was incorporated on 26 July 2016, it has no trading record or history of operations. Furthermore, the Issuer itself does not have any substantial assets and is essentially a special purpose vehicle set up to act as a financing company solely for the needs of the Group, and, as such, its assets are intended to consist primarily of loans issued to Group companies. The Issuer is mainly dependant on the business prospects of the Group and, therefore, the operating results of the Group have a direct affect on the Issuer's financial position. Accordingly, the risks of the Issuer are indirectly those of the Group, and, in turn, all risks relating to the Group are the risks relevant to the Guarantor.

The operations of the Group and its operating results are subject to a number of factors that could adversely affect its business and financial condition, some of which are beyond the Group's control:

- i. Embarking on the Mediterranean Maritime Hub Project means that the Group is shifting its current business model (with most of the services provided being sub-contracted externally) and is in the process of building a facility with an increased overhead and fixed-cost base. Until the popularity of the new business model takes effect, the Group is subject to the risks and the difficulties frequently encountered by companies in early stages of their development, due to the significant investment in marketing and customer acquisition costs, together with significant investment costs and increased levels of staffing and personnel. In this regard, the Group faces the challenge of executing its project plan at the expected levels of investment and, additionally, ensuring that it can run the Mediterranean Maritime Hub site at the lowest cost possible, whilst focusing on achieving the maximum possible take-up of its services to ensure cost and investment recovery. Failure to achieve such goals could have an adverse effect on the business, financial condition and profitability of the Group.
- ii. As the Group embarks on the realisation of the Mediterranean Maritime Hub Project and engages in discussions to promote the new capabilities of its business offerings, the Group may be exposed to certain risks in the event that its service provision becomes substantially more complex. Such risks could include escalating costs, as well as the requirement for additional procurement and project management time and oversight expertise, all of which could have a material adverse effect on the Group's revenues, costs, financial conditions and results of operations.
- iii. The Group's projected funding plan and its impact on capitalisation and indebtedness indicates that the gearing ratio (borrowings: total funding) is projected to increase to 73% gearing following the issue of the Bonds. Gearing is then projected to decrease as the Project nears completion, as retained earnings levels improve the shareholder equity base. This represents a relatively high level of gearing in the initial years, which gives rise to all the risks typically associated with highly leveraged capital structures. The principal risk in this respect is the fact that the debt service obligations resulting from such a capital structure will absorb a significant portion of cash generation. Should the Group not manage to achieve its projected operating

results, this will adversely impact gearing levels. Adverse changes to the Issuer's and the Group's projected cash flows will reduce the projected level of debt service cover and may, therefore, adversely affect its ability to meet its debt service obligations.

- iv. The Group is indirectly exposed to the oil and gas industry which has recently been undergoing extended periods of high volatility, with drops in the price of oil having a direct impact on the level of exploration, production and related activity by international oil companies within the sector. Furthermore, the oil and gas drilling industry is typically characterised by a few dominant players, their service providers and their movements across the globe. The success of the Mediterranean Maritime Hub is, thus, typically dependent on the continued popularity of the Mediterranean basin with such market players. Whilst it is anticipated that the risk of this region losing favour with such entities is low, particularly due to the favourable conditions associated with oil drilling in the Mediterranean, the Group may be exposed to risks and difficulties should these conditions fail to continue to attract oil drilling activity in the region.
- v. The Group operates in highly competitive markets. This level of competition may increase, which may limit the future ability of the Group's business to maintain its market share and revenue level. Increasing competitive pressures may cause the Group to make certain pricing, service or marketing decisions that could have a material adverse effect on its revenues, costs, financial conditions and results of operations.
- vi. If any Group entity or one of their third-party service providers, as the case may be, fail to provide high quality services to customers or such services result in a disruption of customers' businesses, the Group's reputation with its customers and its business, results of operations or cash flows could be adversely affected.
- vii. The Group's ability to implement its business strategies is dependent upon, amongst other things, its ability to generate sufficient funds internally and to access financing at acceptable costs. No assurance can be given that sufficient financing for its current and future investments will be available on commercially reasonable terms or within the timeframes required by the Group. Failure to obtain, or delays in obtaining, the capital required to complete current or future developments on commercially reasonable terms, including increases in borrowing costs or decreases in loan funding, may limit the Group's growth and materially and adversely affect its business, financial condition, results of operations and prospects.
- viii. All industries, including the oil and gas industry, are subject to legal claims, with and without merit. Defence and settlement costs can be substantial, even with respect to claims that have no merit. Due to the inherent uncertainty of the litigation and dispute resolution process, there can be no assurance that the resolution of any particular legal proceeding or dispute will not have a material adverse effect on the Group's future cash flow, results of operations or financial condition.
- ix. The Group's operations are in part exposed, in the case of transactions not denominated in Euro, to foreign currency risk on transactions and receivables that are denominated in a currency other than the Euro. As a result, exchange gains and losses may arise on the realisation of amounts receivable and the settlement of amounts payable in foreign currencies.
- x. If one or more of the key personnel of the Group were unable or unwilling to continue in their present position, they may not be replaceable within the short term, which could have an adverse effect on the Group's business, financial condition and results of operations. In common with many businesses, the Group will be relying heavily on the contacts and expertise of its senior management teams and other key personnel. Although no single person is solely instrumental in fulfilling the Group's business objectives, there is no guarantee that these objectives will be achieved to the degree expected following the possible loss of key personnel.
- xi. Historically, the Group has maintained insurance at levels determined by the Group to be appropriate in light of the cost of cover and the risk profiles of the businesses in which the Group operates. With respect to losses for which the Group is covered by its policies, it may be difficult and may take time to recover such losses from insurers. In addition, the Group may not be able to recover the full amount from the insurer. No assurance can be given that the Group's current insurance coverage would be sufficient to cover all potential losses, regardless of the cause, nor can any assurance be given that an appropriate coverage would always be available at acceptable commercial rates.

- xii. The Group is subject to taxation, planning, environmental and health and safety laws and regulations. As with any business, the Group is at risk in relation to changes in laws and regulations and the timing and effects of changes in the laws and regulations to which it is subject, including changes in the interpretation thereof which cannot be predicted. No assurance can be given as to the impact of any possible judicial decision or change in law or administrative practice after the date of the Prospectus upon the business and operations of Group companies.

#### D.3 Essential information on the key risks specific to the Bonds:

An investment in the Bonds involves certain risks, including those set out below in this section. In deciding whether to make an investment in the Bonds, prospective investors are advised to carefully consider, with their own independent financial and other (including tax, accounting, credit, legal and regulatory) professional advisors, the following risk factors (not listed in order of priority) and other investment considerations, together with all the other information contained in the Prospectus.

- i. The existence of an orderly and liquid market for the Bonds depends on a number of factors including, but not limited to, the presence of willing buyers and sellers of the Issuer's Bonds at any given time. Such factors are dependent upon the individual decisions of investors and the general economic conditions of the market in which the Bonds are traded, over which the Issuer has no control. Many other factors over which the Issuer has no control may affect the trading market for, and trading value of, the Bonds. These factors include the time remaining to the maturity of the Bonds, the outstanding amount of the Bonds and the level, direction and volatility of market interest rates, generally. Accordingly, there can be no assurance that an active secondary market for the Bonds will develop, or, if it develops, that it will continue. Furthermore, there can be no assurance that an investor will be able to sell or otherwise trade in the Bonds at or above the Bond Issue Price, or at all.
- ii. Investment in the Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Bonds.
- iii. A Bondholder will bear the risk of any fluctuations in exchange rates between the currency of denomination of the Bonds (€) and the Bondholder's currency of reference, if different.
- iv. No prediction can be made about the effect which any future public offerings of the Issuer's securities, or any takeover or merger activity involving the Issuer, will have on the market price of the Bonds prevailing from time to time.
- v. The Bonds shall constitute the general, direct, unconditional and unsecured obligations of the Issuer and shall be guaranteed in respect of both the interest due and the principal amount under said Bonds by the Guarantor, and shall at all times rank *pari passu*, without any priority or preference among themselves and, save for such exceptions as may be provided by applicable law, shall rank without priority and preference to all other present and future unsecured obligations of the Issuer and the Guarantor. The Bonds will, however, rank subordinate to the present and future secured creditors of the Issuer and the Guarantor. In view of the fact that the Bonds are being guaranteed by the Guarantor, Bondholders are entitled to request the Guarantor to pay both the interest due and the principal amount under said Bonds if the Issuer fails to meet any amount, when due. The strength of this undertaking on the part of the Guarantor is directly linked to the financial position and solvency of the Guarantor. Furthermore, subject to certain restrictions, third party security interests may be registered which will rank in priority to the Bonds against the assets of the Issuer for so long as such security interests remain in effect.
- vi. In the event that the Issuer wishes to amend any of the Terms and Conditions of issue of the Bonds it shall call a meeting of Bondholders. The provisions relating to meetings of Bondholders permit defined majorities to bind all Bondholders, including Bondholders who do not attend and vote at the relevant meeting and Bondholders who vote in a manner contrary to the majority.
- vii. The Bonds and the terms and conditions of the Bond Issue are based on the requirements of the Listing Rules, the Companies Act and the Regulation in effect as at the date of the Prospectus. No assurance can

be given as to the impact of any possible judicial decision or change in law or administrative practice after the date of the Prospectus.

## 5 SECTION E – OFFER

E.2b The proceeds from the Bond Issue, which net of Bond Issue expenses are expected to amount to approximately €14,550,000, will be used by the Issuer for the following purposes, in the following amounts and order of priority: (i) an amount of €6,500,000 of the net Bond Issue proceeds shall be advanced, pursuant to a loan agreement, by the Issuer to Mainticare Limited and shall be applied to fund the dredging of the inner sea area adjacent to the Mediterranean Maritime Hub, to increase the versatility and uses of the quay facilities; (ii) an amount of €1,600,000 of the net Bond Issue proceeds shall be advanced, pursuant to a loan agreement, by the Issuer to the Guarantor and shall be used to repay the Group's total aggregate amount of €1,600,000 of bank loans; (iii) an amount of €3,450,000 of the net Bond Issue proceeds shall be advanced, pursuant to a loan agreement, by the Issuer to Mainticare Limited and shall be applied to fund infrastructural improvements at the Mediterranean Maritime Hub, mainly improvements to the yard areas and the quays; and (iv) the remaining balance of the net Bond Issue proceeds in an amount of €3,000,000 shall be advanced, pursuant to a loan agreement, by the Issuer to Mainticare Limited and shall be applied to fund the procurement of plant and machinery, mainly relating to logistics and engineering requirements, and other expenses relating to the Project. In the event that the Bond Issue is not fully subscribed, the Issuer will proceed with the listing of the amount of Bonds subscribed for and the proceeds from the Bond Issue shall be applied in the manner and order of priority set out above. Any residual amounts required by the Issuer for the purposes of the uses specified above which shall not have been raised through the Bond Issue shall be financed from the Group's general cash flow and/or bank financing.

E.3 The Bonds are open for subscription by Authorised Intermediaries through an Intermediaries' Offer. The total amount of €15,000,000 of Bonds is being reserved for subscription by Authorised Intermediaries participating in the Intermediaries' Offer. In this regard, the Issuer may enter into conditional subscription agreements with a number of Authorised Intermediaries for the subscription of Bonds, whereby it will bind itself to allocate Bonds thereto up to the total amount of €15,000,000 as aforesaid during the Intermediaries' Offer. In terms of each subscription agreement entered into with an Authorised Intermediary, the Issuer will be conditionally bound to issue, and each Authorised Intermediary will conditionally bind itself to subscribe for, a number of Bonds as indicated therein subject to the Bonds being admitted to trading on the Official List. The subscription agreements will become binding on each of the Issuer and the respective Authorised Intermediaries upon delivery, provided that these intermediaries would have paid to the Issuer all subscription proceeds in cleared funds on delivery of the subscription agreement. Authorised Intermediaries subscribing for Bonds may do so for their own account or for the account of underlying customers, including retail customers, and shall, in addition, be entitled to distribute any portion of the Bonds subscribed for upon commencement of trading.

Applications for subscriptions to the Bonds may be made through the Sponsor during the Issue Period on a first-come-first-served basis. The Issue Period shall close immediately upon attaining full subscription or on the last day of the Issue Period, whichever is the earliest.

The Issuer will determine and announce the allocation policy for the Bonds within five (5) Business Days of the closing of the Issue Period. The results of the offer, including the allocation policy, will be announced through a company announcement. It is expected that allotment letters will be dispatched to Bondholders within five (5) Business Days of the date of the announcement of the allocation policy.

The following is a synopsis of the general terms and conditions applicable to the Bonds. A Bondholder is deemed to have invested only after having received, read and understood the contents of the Prospectus, including the full terms and conditions contained in the annexes thereto:
